

# Teachers Guide to Create Lesson Structure

# Student Interaction

- **Check on what did they do this week?**
- **Spontaneous Review of Last Week's Lesson**

**Time Taken: 5min**

# REPORT ON HOMEWORK

**Assertively  
mention the  
importance  
of homework  
everyweek**

Kids upload homework to the online portal and the teacher will check and mark the corrections ahead of the class.

**Time Taken: 5min**

 **STEP 3**

# Topic Title & Learning Objectives

**What will the  
child be able to  
learn by the end  
of this lesson.**

**Time Taken: 2min**

# DO A WARM-UP

**Ask questions  
or conduct  
activities  
related to the  
concept you  
are about to  
explain**

**Time Taken: 2min**

# CONCEPT EXPLANATION

**The theory and definitions of the subject are explained in detailed.**

**Time Taken: 5min**

# — Give Real Examples

**Depending upon the type of the course**

- **Teacher shows how to solve these examples for concrete applications of the concept**
- **OR Show books, articles, videos with the real examples of the concept explained**

**Time Taken: 3min**

# GIVE THEM EXERCISES TO DO

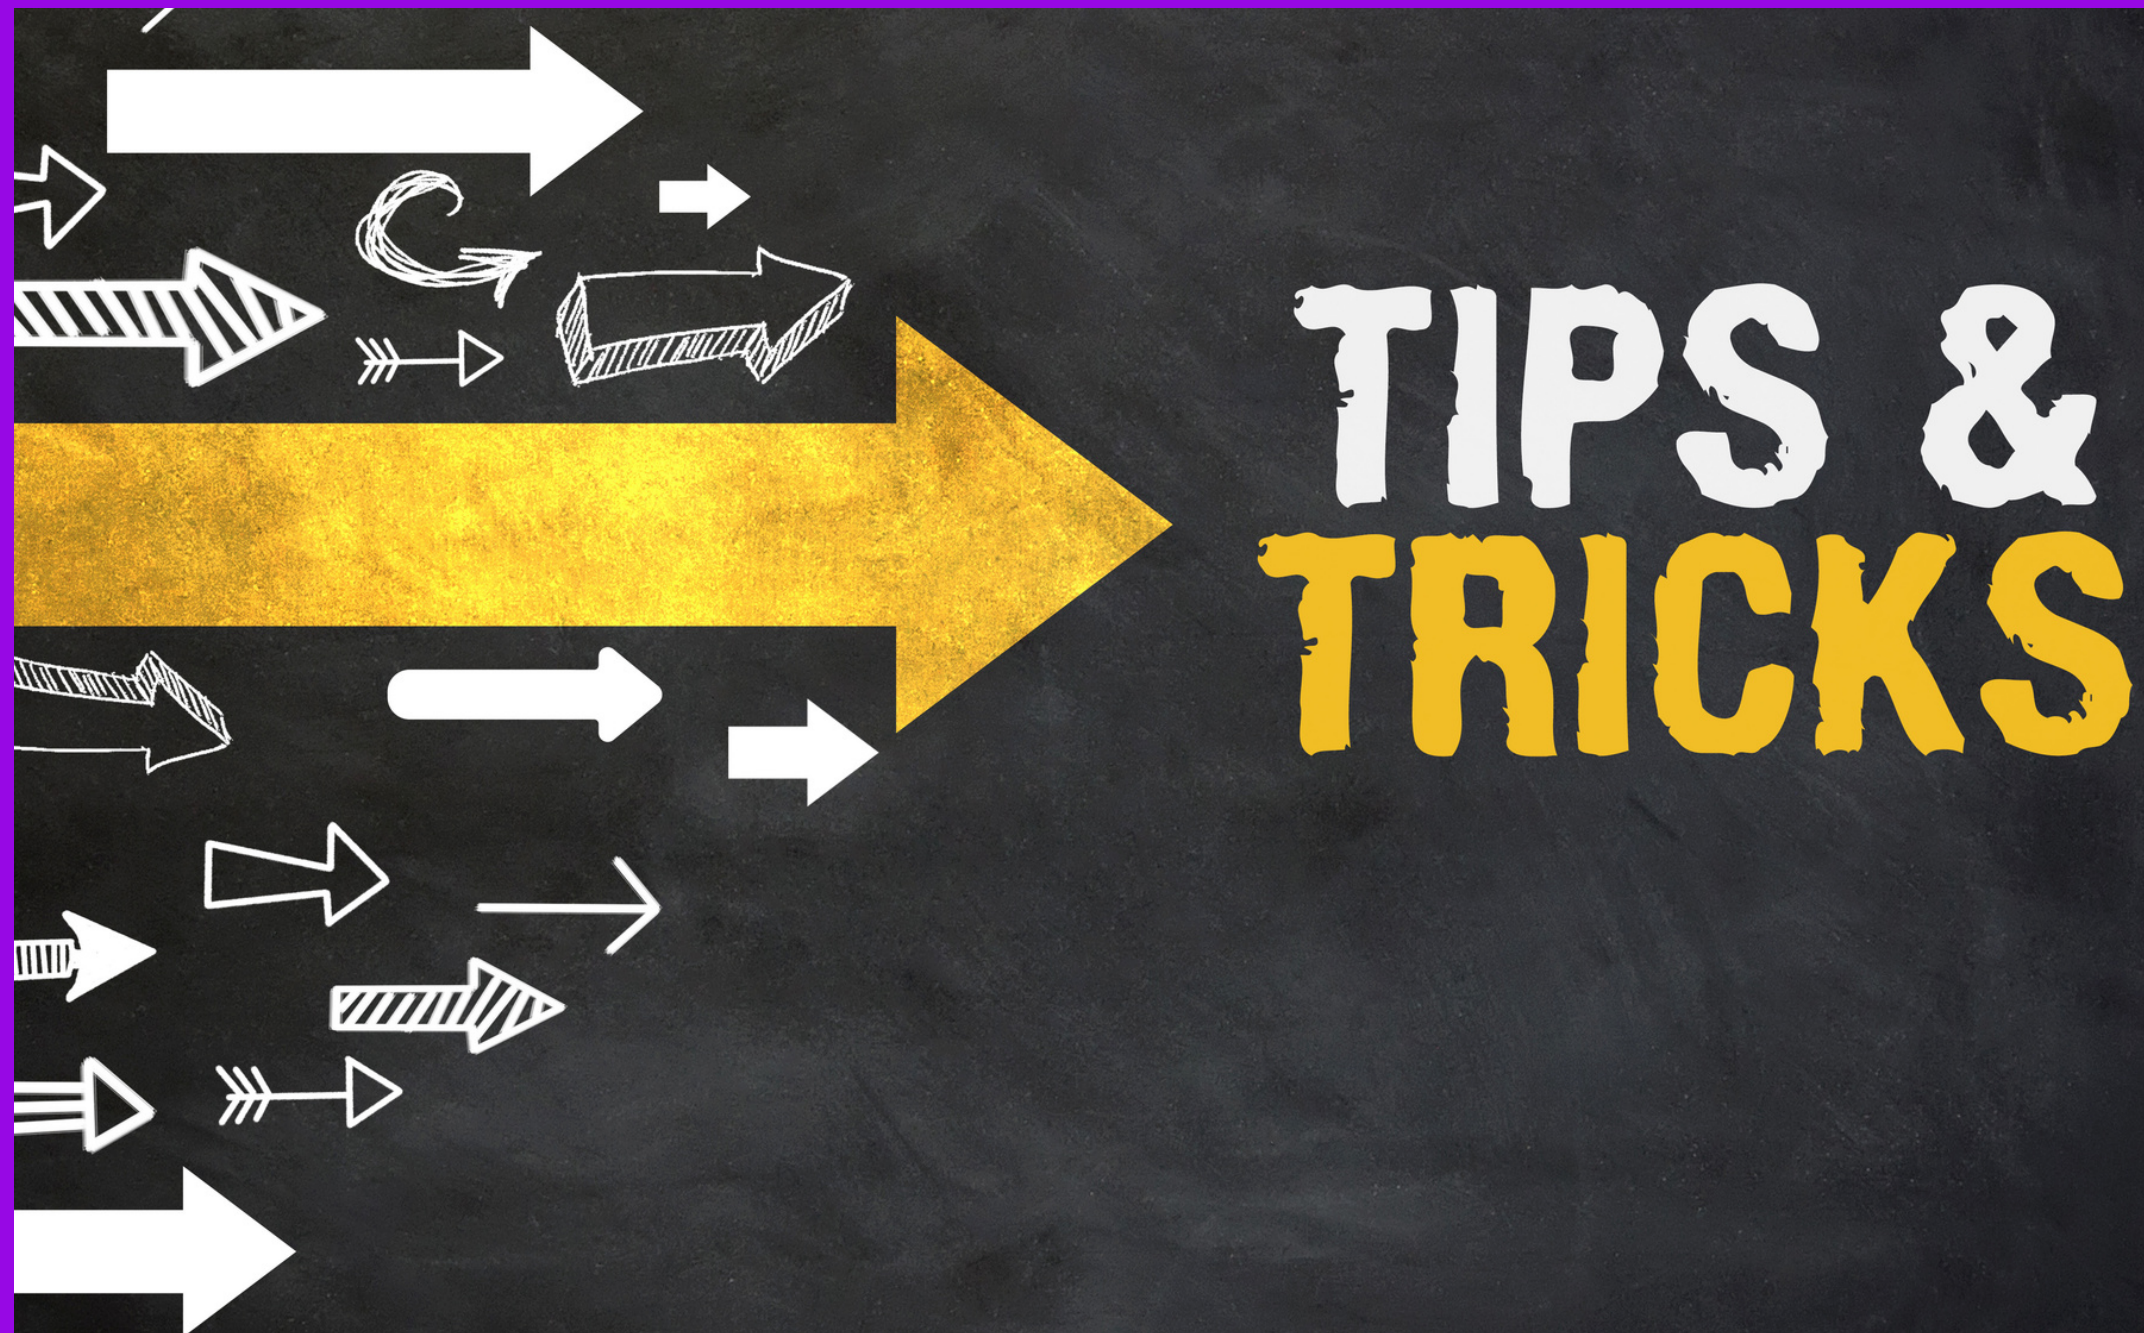

1. Teacher should show the exercises on their screen and ask all students to workout all the exercises on paper (show few exercises at a time). And keep a timer between 1min to 5min to complete, depending on the questions.
2. Once students have solved some of the exercises, teacher should pick on each child in a circle to have turns to answer the questions.
3. If students are more than questions solved, then they can be asked in the next round.
4. Make sure not to give chance to same student even though they raise hand and do not allow students to shout out answers.
5. Some kids are very shy to answer or participate in class, so make sure all get equal chances always and everyone is involved in every class.

**Time Taken: 7min**

# EASY TO REMEMBER LEARNING STRATEGIES

**Share the tools,  
tips, and  
techniques to  
remember  
better.**

**Time Taken: 5min**

# **HOMEWORK TIME**

**Assign a task for students to work independently, practice the learnings and develop self-discipline.**

**Time Taken: 5min**

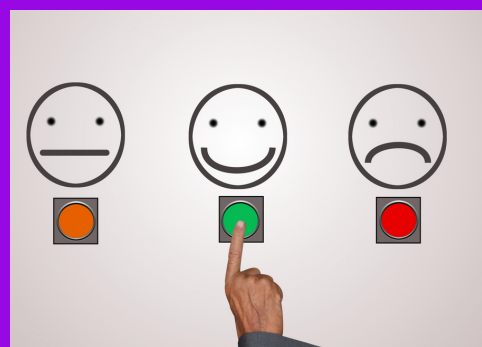

# —STUDENT FEEDBACK

**The teacher should complete an individual student feedback sheet at the end of every lesson. This helps the parents to know the progression of their children.**

# ○ THINGS TO REMEMBER

1. Presentation slides should have less descriptive text with good quality images and your oral detailed explanation will make it better understandable for the students.
2. Voice modulation is very important when teaching to keep the children attentive, change your tonality in a few places especially when you are explaining the concepts.
3. The parent will also complete a feedback form about the teacher.  
Hunarly Team works closely with the teachers and keep them informed about their reviews and suggestions so that it helps us to improve on the lessons.
4. Adjust the time taken for each section based on the number of concepts to be explained in one lesson. But the lesson structure should be followed for every concepts.

**Any queries  
feel free to  
ask. We are  
happy to help!**
